

C A Newe Al-
manacke and Prognosticati-
on, Collected for the yeare of our Lord
God, **M.D.L.IX.** Wherein is expressed the
Chaunge and full of the Moone, with theyr
quarters, The varietie of the Ayre, and also of
the windes throughout the whole yeare, with
infortunate times to bie and sell, take mede-
cine, sow, plante, and iourney in, both by
lande and by water, and other necessarye
thinges, as heareafter shall appeare.

Made for the merydian of Glouces-
tre, and Poole Articke, there
mounted, **LIII. Degrees,**
seruyng for all
Englande.

By *Lewes Vaughan.*

C Imprinted at London,
in Fleetstreet, nere to Sainte
Dunstones Church, by
Thomas Barth.

call attractive,
and Sagittarius.

1559

HAVE not dysposed
these, for wylpe wether war-
chers, for inueters, scoffers,
and scozners: But for the in-
genious whiche desyre knowledge, ha-
uyng a dexteritie in naturall thynges,
thirstinge after infallible pleasaunt con-
clusions, louyng wysedome, hatyng the
contrary. To thele I say, bye, take, read,
perceiue, and then practyse: so ye shalbe
herein moche delited, and moze profited.

Samy 55 Gaudes
16 Sept 1599

Nicholas

16 Sept 1599

**A Declaracion of suche thinges
as are conteyned in this present
Almanacke.**

1559.

The Prime or Golden numbze. ii.
The Cycle of the Sonne. xxviii.
The dominicall or Sondays letter A.

Indictio Romana. ii.

Betweene Christmas and Shroftide. vi. weeks

After Wednesday the. viii. of February.

Easter daye the. xxvi. of Marche.

Rogacion dayes begin the. xxx. of Aprill.

The Ascencion day, the. lvi. of Maye.

Whitesondaye the. lviij. of Maye.

Aduent of our Lorde the. iij. of Decembre.

To take preparatiues or digestiues, Cemin, Libra, and Capricornus.

To pouрге by Clystuaries, when the moone is in Cancer.

To purge by drinckes, when she hath her course in Scorpio.

To pouрге by pylls, she being in pisces.

To take Clysters, when as she is founde in Libra and Scorpio.

To take Vomettes, she being in Aries, Taurus, and Capricornus.

To take Gargarismes, when she is in Aries, Cancer, and Capricornus

To stoppe stures, reumes, or laxes, Taurus, Virgo, and Capricornus

To comferte the bettre naturall attractiue, Moone beinge in Aries, Leo, and Sagittarius.

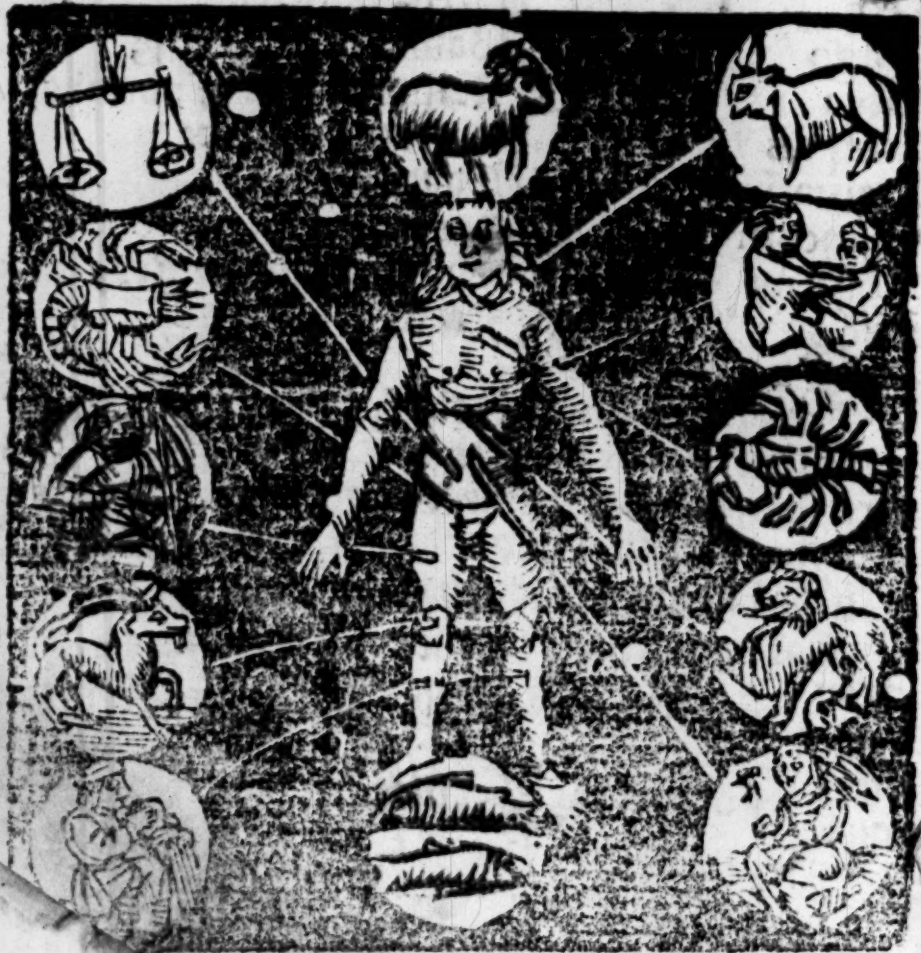

Can.
Scor.
Pisce.)

For colozike, best, mebz, & teete except.

For the sanguyne, all be apte, that tofoze are named good.

The Sargtan muste take hede, that he touche not the membze whiche the sygne governeth, noz that the Sonne oz Moone be in the same, oz the Lorde of the fyrst house oz Cest angle be in the ascendent, and that this carecter  be not in the daye whiche you let blode, oz make any incision.

And howe euery Sygne gouerneth the membes of mannes bodye afozelayde, beholde heare the: Anotamie folowinge.

The Eclipse of the Moone.

In this presente
yere of our Lorde
God. M.D.L.IX.

we shall haue an

Eclipse of the Moone, whi-
che shall be the xvi. daye of Septembze,
at. iij. of the clocke . xlii. minutes after
noone, the Moone beinge in the. ij. De-
gree, and. xxxi. minutes of Aries, nye to
the Dragons heade. She shall be darke-
ned. xv. pointes and. xlvij. minutes, she
shall continue from the beginninge, to
the ende. iij. houres and. viij. minutes.

A PROG-

NOSTICATION, FOR

the yere of our Lorde GOD

M.D.L.IX. VVherin ye may se to fore

hande the mutacions of the ayre, that

shall happen thoroughoute the vvhooole yere.

Declaringe also what dysleases, warres, pe-

silence, and derth of vitailles, shall happen to

them that dwell in the viii. Climate vnder

the eltiuacion of the Poole Arcticke. 51. 52. 53.

degrees, as the inhabitauntes of the most

parte of Englande do dwell. Made for

the meridiane of Gloucestre and

North poole there mounted,

LIII. degrees, seruinge

for all Englan,

de,

By Lewes Vaughan.

Imprinted at London in Fleetstreete,

nere to saint Dunstons church,

by Thomas Warthe.

Ecclesiastici. 33.

Argilla est figuli, faciem quam mutat in omni
Inque luto species, quas lubet, ille facit.
Sic domini terra est, sic ipsius aether & astra,
Quae nouat ac variat, cum velis atque lubet,
Nam quamuis celsi nunc tristia multa mimentur
Morbos, languores, prelia, dissidia
Saturnum tamen ille grauem, missi Ioue mulcet,
Et Martis rabiem, comprimit, atque regit,
Nempe suum cur factor opus non texat et illud
Detexat rursus pro lubiti arbitrio,
Quod superest, igitur, dominum multa prece flecte
Vt non quae impendet, sauiat ira nimis,

Reade the. 43. Chapter of Ecclesiasticus.

**Leues Vaughan, To the
gentle Reader.**

Have louinge Reader, for thy
brillite and necessary vse briefe-
lye, set forth the varietie and
state of this present yere 1559.
takynge my foundation accor-
dinge to the doctrine of Ptholomeus, Albu-
mazar, Abraham, Iudæus, Auenezra,
Messahala, Alchindus, Haly, Bonatus,
Leapaldus, and diuers other at the entringe
of the Sunne into the firste minute of Aries,
Cancer, Libra, Capricornus. Firste you shall
fynde in what forme and maner the Eclipses
of the Sunne and the Moone in the moneth of
Aprill 1558. (the yere laste passe shall take
their effectes and opperations this yere.

Secondlye you shall fynde the .4. quarters
of the yere, set out with the fygures of the en-
tering of the Sunne in Signa cardinalia, and
the fygure of the Moone eclipsed.

Thirldy the newe, full, and quarters of the
Moone euerye moneth with the chaungynges
and enclynacions of the time and the variaci-
on of the wyndes.

A.ii.

Fourthly

A prognostication

Fourthlye of dearth and plenty in victuals,
next of warres and contencions, and finallye
of the sickness and diseases which shall reigne
this yere. Thus I leaue farther to trouble the
saue me as I tender the furtheraunce of good
learninge, profitable to a common welth, pray
inge thee, not to take all thinges that shall be
pronosticated in this yeres prognostication as
cōpygentes of fatall necessitye, but that it shall
chaunce yf God do not forbide.

✿ Fare most hartely well vnsayned good
Christian Reader, at Gloucestre, the
viij. of August. 1558.

Of the Eclipse of the Moone
the second of Aprill. 1558. last past, and in
what fourme and maner, she shall
take her operacion.

What time, day, and
houre, this Eclipse dyd ap-
peare in our horizon, and the
figure of the heauens erected
for the same houre, how long
the moone was obscured and
decreased

A prognostication

darkened, it is briefly set forth in the Almanacke and Prognostication, of the yere passed by maister Beningham. This Eclipse shall take his operation in all landes subiecte to Libra, that is to say, Germany, Italy, Palestina, Constantinople, Babilon, Araby. Also Flaunders, Fraunce, Brabant, Scotlande, and Englande, And all other Cyties and Townes, which are builded vnder Libra, lyke wylse all other places and townes that be vnder one Clymat with the Sygne of the place Eclipsefall, and also with thassendent the which shall be to longe to resite, and for that cause, I leaue it of for breuitie. But she shall shewe her strength and efficacie more in one region then in another. This shall be almoste iiii. monethes from the beginninge of Nouembre 1558. vntill the myddest of February this present yere 1559. The coniunction of Saturne and Mars in this Eclipse, signifieth desolacions, discordes, contencions, stryfe, great manslaughter, murmuracions, feares, and troubles shall happen to men, and no pyrie nor mercy almost amongst men. Also colde, cloudy, and intempe

A iii.

rate

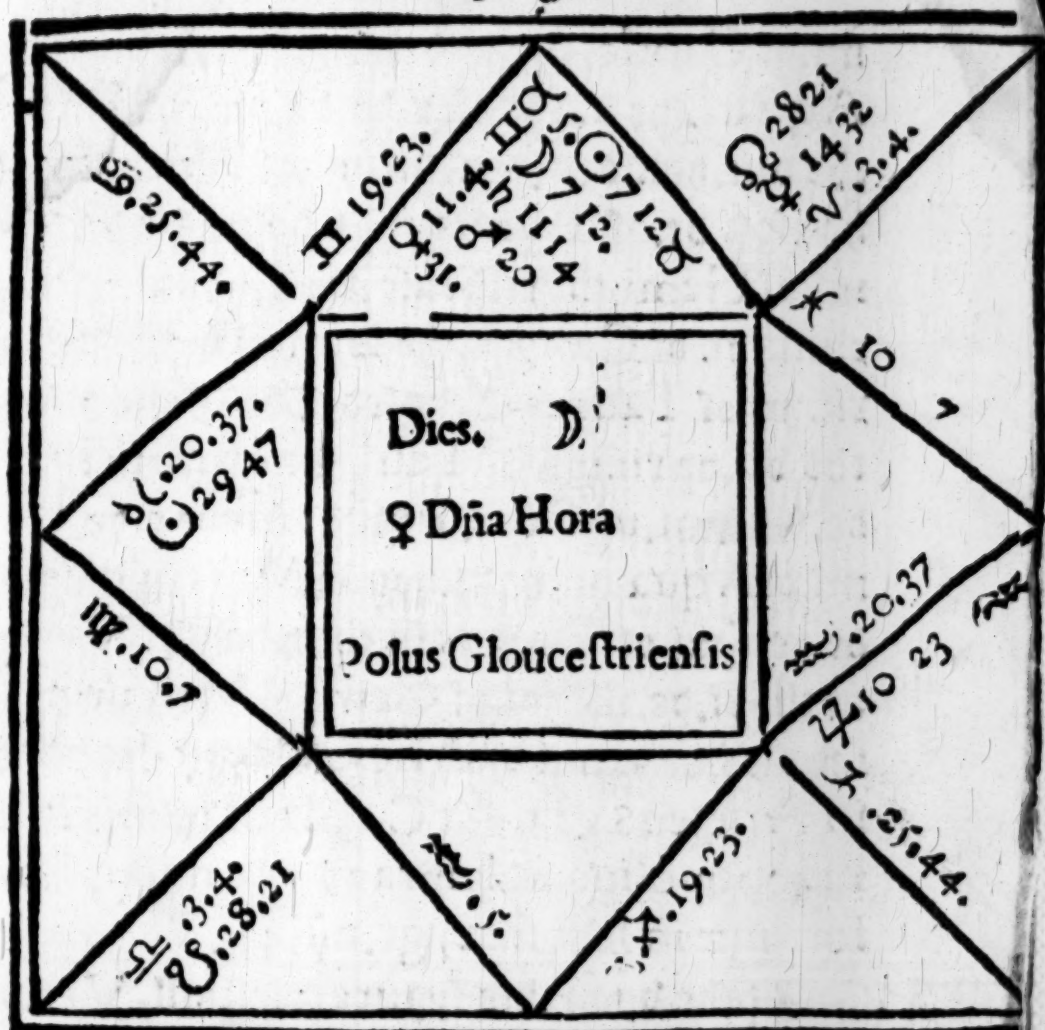

A prognostication

rate ayze, thunder and lyghtning, often wynde, great tempest, pestilence, & many strange syckenesses and diseases. To this will Jupiter helpe in quadrata Saturni & Martis, who giueth vp the lordship to them, so that Saturn and Mars hauing receyued the power by the reason aforesayd, great princes whiche are vnder Jupiter shal leuey great charges vpon the pooze people, and with great veration and damage. But Venus beyng Lady of this eclipse in septima domo domus Mercurii, beholdinge Mercury with a sextyle aspect will sumwhat mytrygate the euill, that Saturne and Mars doth threaten.

The Sytle or Figure of the heauens, at the tyme of the Eclipse of the Mone the .xviii. day of Aprill. 1558. last past, at .xi. of the clocke, fiftie and one minutes before noone,

The

A prognostication

The declaracion of this fygure.

The degree ascendent the 20. 37. minut. of ♎. the second house, the x. degree vii. minut. of Virgo, the. iiii. degree iiii. mi. of Libra, the iiii. house iiii. de. of Scorpio, the iiii. house xix. de. xxiii mi. of Sagittari, the v. house xxb. de. xliiii. mi.

A prognostication

in Ariete 28 gra, Et Cauda draconis in es
ius opppositio in Libra 28 gra, mi. 21. Pars
fortunæ in Leone 23 gr, mi. 47.

I take vpon this fygure celestially, Venus
to be ladye and Mercurie partaker with her,
The beinge in domo Mercurij, beholding him
with fertile aspect, & beholding Iupiter with a
good and cherfull aspect, Sygnifieth that the
noble and learned Religious men, shall
throughe wisdom, eloquence, & wylse govern
ment, somewhat mitigate the Treason, man-
slaughter

A prognostication

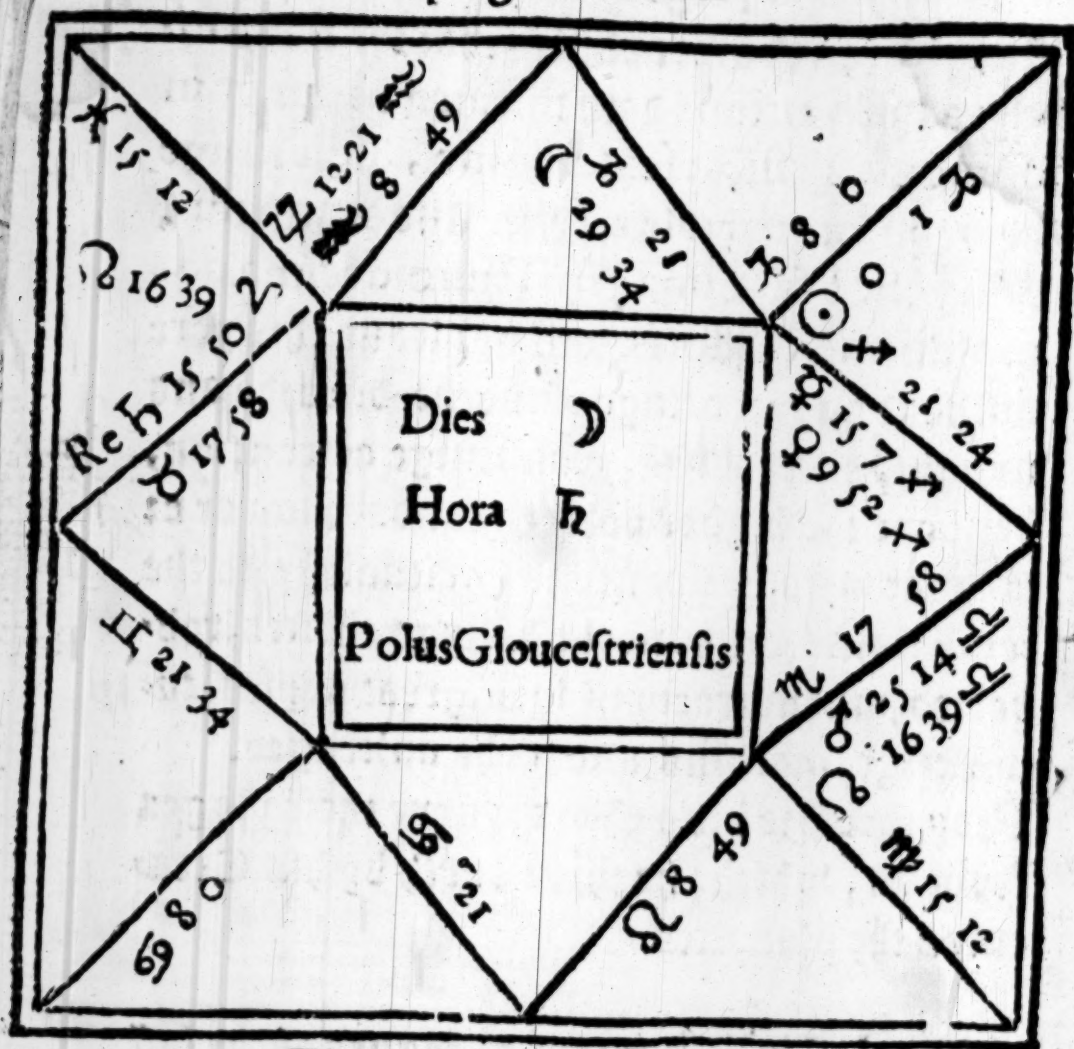

slaughter, and other euilles that the Saturni-
ans and Martians doth threaten. Iupiter in
domo Saturni, in sexta domo, beholdinge
hym with a quartyle aspect. Also Saturnus,
Mars, Sol & Luna, in Tauro decima do-
mo, domus honoris, will not leaue this yere
without augmentinge of moche disoord and
noughty enterprises, producinge descencion,
betwene the higher powers, and the lower or
meaner sorte, betwene the spiritualty and the
temporalitie, with moche pyllage, thestes, rob-
beries, murmuracions lyes, great noyses, tu-
multes, comocions, and suche outcages.

Pray therfore vnto God to turne these plagues
from vs, whiche he threateneth by his Crea-
tures the planettes.

A celestiaall, Sceaime or fygure of the last
quarter Astronomical erected for the
Winter. enteringe of the Sonne into the win-
ter poynt, being the first mⁱ. of Capri-
corne, the yere of our lorde 1558. the
xii. of December at one a clocke 32.
minutes xii. secondes after noone.

The

A prognostication

The declaration of this Figure.

The degree ascendent the, 17. degree, 58. minutes of Taurus, the second house the, 21. degree 34. minutes of Gemini, the III. house the, 8. degree, 0. minut. of Cancer, the fourth house the. 21. of Cancer.

the

A prognostication

the .v. house the eight degree. 49. minutes of
Leo, the sixte house. 15. degree 12. minutes of
Virgo, the .7. house the .17. degree. 58 of Scor
pio, the .viii. house .21. degrees. 34. minutes
of Sagittarius, the .9. house .8. degrees. 0. mi
nutes of Capricorne, the tenth house the .21.
of Capricorne, the .11. house the eyght degree
49. minutes of Aquarius, the .12. house. 15. de.
12. minn. of Pisces, Sol in the first minut. of
Capricorne, Luna also in the .29. degree .34.
minutes of Capricorne, Saturne Re. in the
15. degree 50 minutes of Taurus, Jupiter in
the .12. degree .21. minutes of Aquarius, Mars
in the .25. degree .14. minutes of Libra, Ve
nus in the .9. de. 52. minutes of Sagittarius,
Mercurius in the .15. de. 7. mi of Sagittarius.
Upon this figure I perceyue Venus to be la
dye of this quarter, who committeth her dis
position to Jupiter by a Serpyte Aspecte,
the beyng in Sagittario cum Mercurio, in
a fyrie sygne. Wherefoze as for the disposytion
of the ayre it shalbe for the most parte drye, w
poztherly windes, colde, and cloudy, and yet
not all without raine, tempest, frost and snow
The

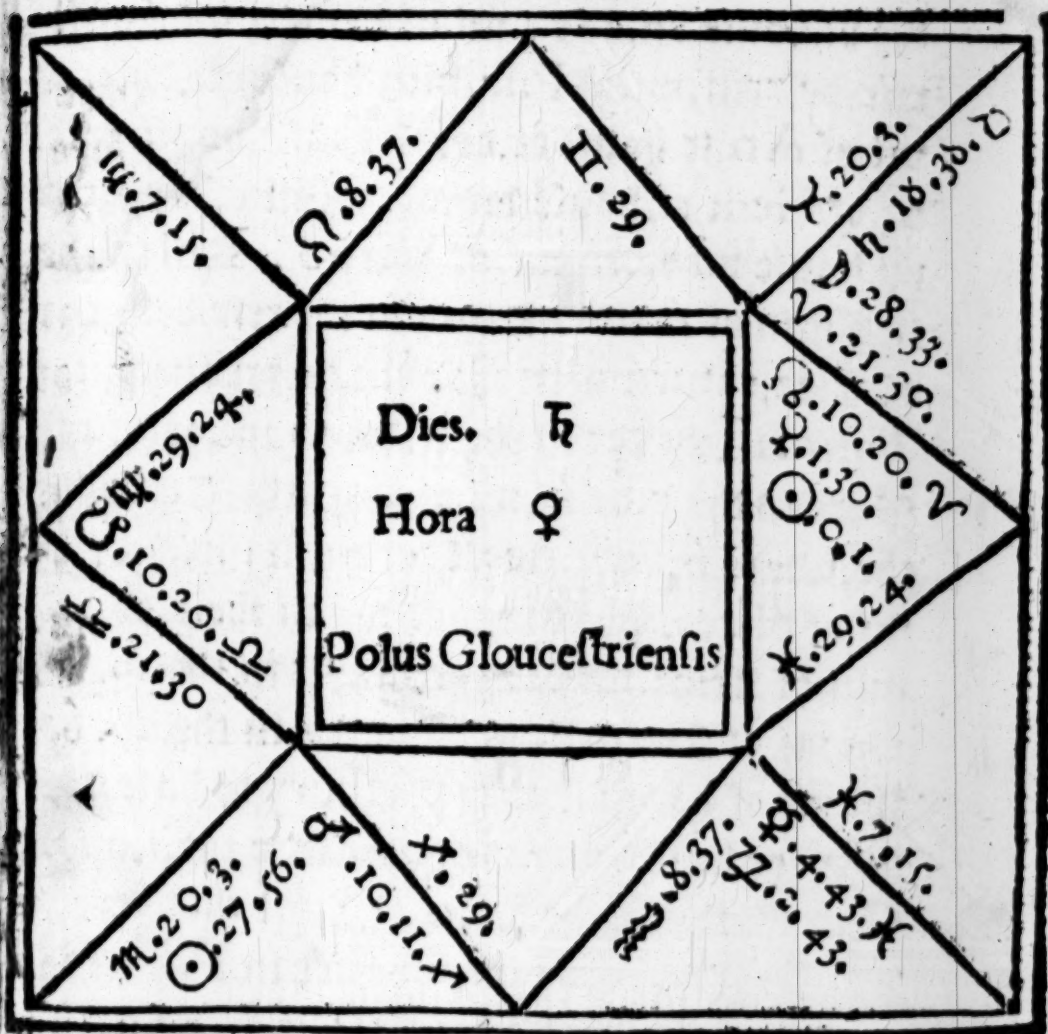

A prognostication

The Eclipse of the Moone and of the Sunne
aforesaid, and in the conjunction going before
Sol, Luna, Venus, and Mercurius, in a fyre
sygne, wyl also further the same, Saturne be
inge Retrograde in Ascendent aspiciens
Iupiter ex quadrato. Sygnifieth that there
shalbe no reuerence to the ministers of religi-
on, and murmuruge amonge the common
people. The superiorite shal leuy great char-
ges vpon the commons, for dyuers occasions
that shal happen throughe oure noughtynes.
This confyrmeth the Moone, being seperated
from Mars with a quartile aspect, and the op-
posicion of Saturne and Mars in Januarpe.

 A figure Astronomicall, for the en-
tring of the Sonne in to the fyrt min.

try signe, also Sol Jupi. Mercur. & Luna, in
cōiunctione precedente in ascendēte in a
watry triplicity, therfore this quar. shalbe in-
clined to raine, tēpest, & much violent windes
also much cōtentiō & strife, & about the end of
Aprill gret preparatiō & going forth to war, of
this I wil speke moze in y cha. of peace & war

The

A prognostication

**The Figure of the heuens at the second
quarter Astronomicall, begynninge
at the entring of the Sunne into the
fyfthe minute of Cancer, the 12 of
Iune at 4 of the clocke, 52 minutes
33 secondes after noone.**

A prognostication

The declaracion of this Figure.

The degree ascendent the 21. 18 minut. of scorpio, the 2 house the 17 degr. 3 mi. of sagitta. the 3 house the 27 de. 54 mi. of Capri. the 4th. house the 11 degree of Pisces, the 5. house 11 de. 4 mi. of Aries, the 6th. house 1 de. 38 mi. of Taurus, the 7th. house 21 de. 18 mi. of Taurus, the 8th. house 17 de. 3 min. of Gemini, the 9. house 27 de. 54 mi. of Cancer, the 10. house 11 deg. of Virgo, the 11. house 11 de. 4 mi. of Libra, the 12. house the 1 de. 38 mi. of scorpius. Sol in the 1st 11 mi. of Cancer, Luna in the 2 de. 7 mi. of Libra, Iupiter in the 17 de. 34 min. of Pisces, Mars in the 7 de. 33 mi. of sagittarius, Retrogradus Venus in the 25 de. 12 of Cancer, Mercurius in the 20 de. 31 of Cancer. Caput draconis in the 5 de. 28 min. of aries. Cauda draconis in the 5 de. 28 mi. of Libra. Pars fortunæ in the 24 degree 13 minutes of aquarius.

I take of this revolution Iupiter to be Lord of this quarter, Iupiter, mercurius, and Venus, in the coniunction going before in a watry triplicite, and Iupiter beholdinge sol and luna with a quartyle aspect ex sexta, and sanguolent Mars ex duodecima. Also in figur

A prognostication

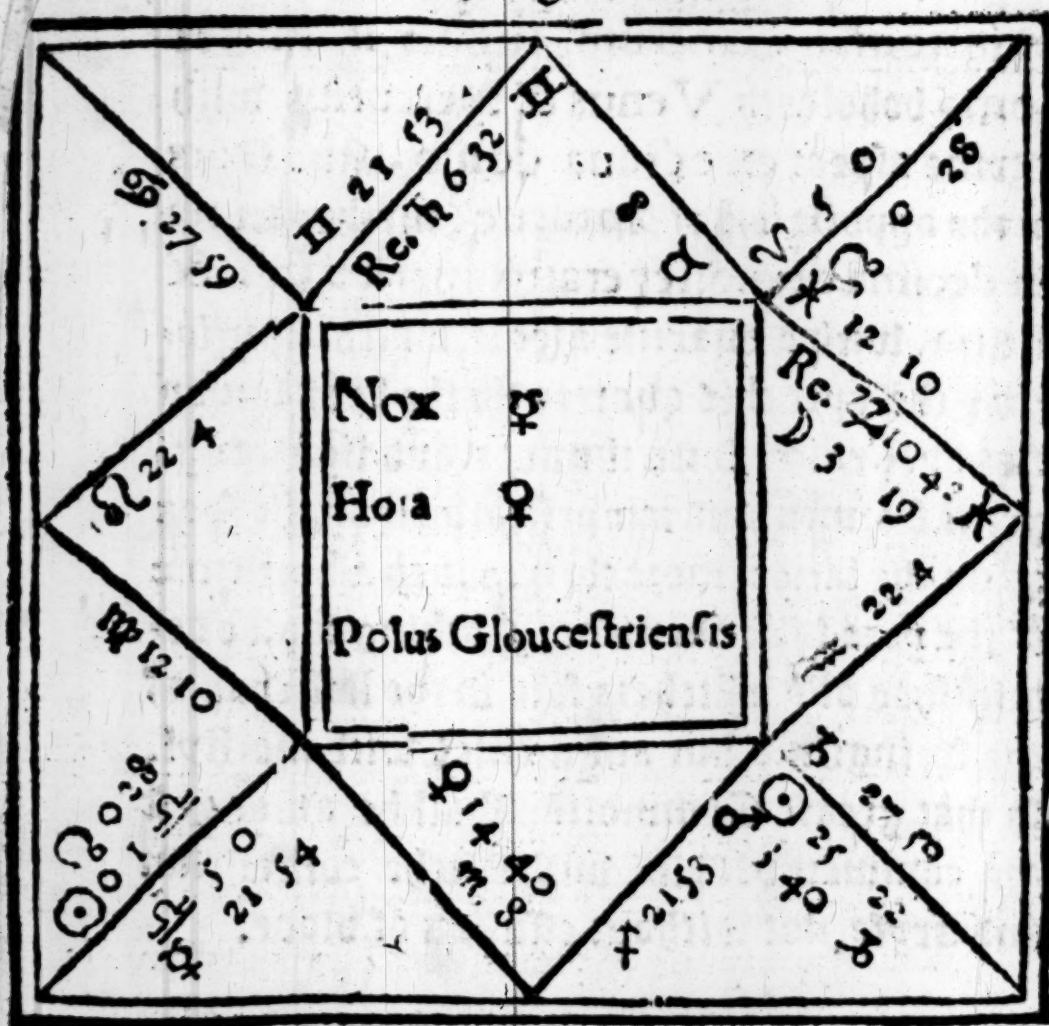

ra introiti in Cancrum, Iupiter in quarta
domo beholdeth Venus & Mercurius with
a trine aspect ex octava domo, And Mars
in the opposition of Saturne, further Luna
in decima domo: seperatus fuerit a sole &
Luna, with a quartile aspect, which signify-
eth y^e the ayre this quarter shalbe very windy
cloudy, & rainy, with thunder, and lightning,
great stormes, and tempest, aswell on the Sea
as on the lande, more then so such a hore time
of the yere is convenient. Nothing shalbe de-
minished of y^e which is said in the last chap. of
the springtime, but augmented with much pl,
so that greete Commotion shall be amongst
the common people, with moche contencion
and stryfe, not without effusion of blode.

C The true syght or Figure of the heas-
uens at the thyrde quarter Astrono-
Autumne micall, begynninge at the enterpyng
of the Sonne into the fyrste minute
of Libra, the 14 day of Seprembre,
at 2 of the clocke, 21 minutes, 8 Sec-
ondes befoze noone.

15.

The

Ap rognostication

The declaracion of this figure.

The degree ascendent the 22.4 mi. of Leo
the 2 house the 12 de. 10 min. of Virgo,
the 3 house 5 deg. 0 min. of Libra, the 4
house the 8 of Scorpio, the 5 house 21 de. 53 mi
of sagittarius, the 6 house 27 de. 59 mi. of Ca
pricornus, the 7 house 22 de. of aquarius, be
the

A prognostication

the 8 house 12 de. 10 mi. Pisc. the 9 house 5 de. 0 mi. of aries, the 10 house 8 of Tau. the 11 house 21 de. 53 mi. of Gemi. the 12 house 27 de. 59 mi. of Can. Sol in the 1 mi. of Lib. Luna in the 3 deg. 19 mi. of Pis. Satur. Retrocedens in the 6 de. 32 mi. of Gemi. Iupi. Retro. in the 10 de. 42 mi. of Pis. Mars in the 3 de. 40 mi. of Capri. Venus in the 14 de. 40 mi. of scor. Mer. in the 21 de. 54 mi. of Lib. Caput dra. in the 28 mi. of aries, Cauda dra. in the 18 mi. of Lib. Sorsfortu. in the 25 deg. 22 mi. of Capricornus. Upon this figure I se that Sol is Lord & chiefest dominator of this quarter, & I fynde Venus to be lady of the reuolucion houre. Sol be holding mars with a quartyle aspect, Jupiter Re. in octauo domo, beholdeih saturne Re. with a quartile aspect, Luna beholdeih mars with a fertile aspect: By meanes whereof, the tyme of haruest shalbe inclyned to drynes, often wyndy, thunder, lighning, & some thours and tempest, moche rayll that chaunce in this present tyme, as insurrections, murmurac. &c. Also many strange syckneses and diseases, of the whiche we will wryte moze in their proper chapters: wherfoze let vs pray to god for grace

with

A Prognostication.

with a stedfast faith, for it is he that can turne
and conuert all thinges to good.

The figure of the heauens, at the time
of the Eclipse of the Moone 1559. the 16
daye of Septembze, at 4 of the clocke, 13
minutes after noone.

A prognostication

The declaracion of this figure.

The degree ascendent, the 8.30 minut. of Aquarius, the 2 house 11 de. 13 min. of Aries, the 3 house 19 de. 14 mt. of Tau, the 4 house 7 de. of Gemini, the 5 house 20 de. 45 mt. of Gemini, the 6 house 7 de. 3 mt. of Cancer, the 7 house 8 de. 30 mt. of Leo, the 8 house 11 de. 13 Libra, the 9 house 19 de. 14 mt. of scorpio, the 10 house 7 of sagittarius, the 11 house 20 de. 45 mt. of sagittarius, the 12 house 7 de. 3 mt. of Capricornus. Sol in the 2 de. 31 mt. of Libra, Luna in the 2 de. 31 aries, Eclipsed nighe to the dragons head, saturnus Re. in the 6 de. 29 min. of Gemini, Iupiter Re. in the 10 de. 26 min. of Pisces, Mars in the 5 de. 4 mt. of Capricornus, Venus in the 17 de. 32 min. of scorpio, Mercurius in the 25 de. 49 of Libra, Caput draconis in the 22 mt. of aries, Cauda draconis in the 22 mt. of Libra, Pars fortune in the 8 degree 50 minutes of Virgo.

I take vpon this figure celesttiall, Sol to be Lord of this Eclipse, who comitteth his dysposition to mars, by a quartile aspect: Luna applying to mars with a quartile aspect: Sol being golding saturne Re. with a trine aspect: Iupiter

A prognostication

ter Re. in quadrato saturni, signifieth great
mischiefe, disoord, manslaughter, hatred and
wraoth, aswel betwene great princes and eccle
spastical persons, as the comon people: aswel
pruate as publike, with deceite, treason, theft,
burnynge, adulterye, robbozie, and fynally all
kind of wickednes. Also betwene secular riche
and mighty princes, warre, enuy, hatred, rancour,
& deceite. Also the officers of great estate
of some great prince shalbe deposed of their of
fyce, and shalbe greatly hated of their prince.

This Eclipse shall not be seene of vs, but to
warde the latter ende, bycause it doth begin in
the East: but it shalbe sene plaine and perfect
lye in Babilon, Hierusalem, Achaia, Mace
donia, & Constantinople, her influence shall
appeare in Spaine, in Fraunce, Flaunders,
Scotland, Ireland, England, Germany, sir
ia, Armenia, and Babilon &c. Her effect shal
begin incontinentelye, from the houre of this
saide Eclipse, and shall continue untill the vi.
of January 1560. nexte comynge.

A prognostication.

The newe moone on Friday, the xxix. of this month, at v. of the clocke xviii. minutes after noone, coide frost, winde southwest.

Of derth and pleny in bitailes this yeare M.D.L.III.

In beholdinge the Face of the heauens, the iiii. Quarters of the yeare, with the Eclipses of the Sonne and Moone, Whete, Rye Barly, and that whiche maye be sowne in the beginninge of winter, shall haue reasonable groweth & prosper wel but it maye haue harme in the

A prognostication

In the lowe countreys, by aboundaunce of
rayne in the spring time and somer. Also otes
Beanes, pease, barbes, shalbe indifferent ple
asurful, likewise, flaxe, and hempe, shal have rea
sonable good and prosperous growthe, apples
Peares, Cherries, Prunes, Keasons, Dates,
Praches, Damolens, Nuttes, Chesnottes,
Fylberdes, and such other fruites shal pros
per better than they did the last yeare, Butter
Cheese, and such other victuals shal be of no
hye price, honye and oyle, shal be at hie price,
wines shal be better cheape then they were
the last yeare. All cattell as oxen, kine, shepe,
goates, hogges, hoxses, and suche other like
shall have this yeare muche hurt throught the
Eclipses of the Sunne and Moone in Apryll,
1558 who taketh effecte in the beginnyng of
this yeare. Also throught the eclypse of the
Moone in Septembze this present yeare.

Of peace and warre.

Fifthe

A prognostication

Firste the conjunction of Saturne and Mars in the terrible Eclipse of the Moone, and the Eclipse of the Sonne in April. 1558 last past, signifieth warre, contention, stryfe, manslaughter, commotions and tumultes in the wynter quarter. In the spring time great preparation and going forth to warre, and many shall come to theyr ende by the swoorde. In the Sommer quarter Mars retrograde in the ascendent in Sagittarius in the opposition of Saturne signifieth mortall warre, contentions, and bloodshed. Finally in Autumpe the thirde quarter, much euill shall chaunce, as insurrections, murmuracions, myschpyse, dyscorde, manslaughter and treason.

Significat etiam quod existent rebelles qui aduersabuntur regi & qui querunt regnum.

Significat etiam mutationes, & res multas in negotiis regis, similiter & in lege, significat itidem quod multae grauitates et damna an accident dominis nobilibus, claris, et sapientibus.

A prognostication

antibus hominibus & labores ac tristitia
atione litis & infirmitates. This cōfymeth
Mars in quadratura solis Iupiter retrogr
us beholdinge Saturne retrocedens in fi
gura introiti in Libra. And Iupiter retro
grad beholding Saturn retrograd in Eclip
si lunæ, Luna in ascendente Ariete, with a
quartile, aspect. Therfore let vs pray vnto god
the auctour of peace, to tourne, conuerte and
chaunge, discencion s, discordes, commocions
and warre, in to peace and concoꝝde, for all
things is in the handes of God, and whether
we lyue, or whether we dye, we be our Lordes
althoughe we be vnwoꝝthy.

C Of thinfirmities that shall be
this pꝛesent yeare.

THE Eclipse of the Moone and
the Sunne in Aprill 1558. the
yere afoꝝsayd, Iupiter in sexta
